ABOUT

Technology is something that has always been a significant part of my life. I am passionate about the process of learning and putting my skills into practice within the world of software development. You could say, I was hooked since "Hello World!". My drive to learn and grow has never stopped since.

SKILLS

JavaScript
React
Node.js
Java
MySQL
MongoDB
Express
HTML5 / CSS3

EDUCATION

UNIVERSITY OF PENNSYLVANIA

Full Stack Web Development, Certificate of Completion
2018

COMMUNITY COLLEGE OF PHILADELPHIA

Graphic Design & Digital Photography

EXPERIENCE

PENNYFUL

A full stack budgeting application that helps users keep track of their spending. Features user authentication, API development and database design.

GIPHY-MINI

A search application that helps users find gifs, pause/play gifs, and keep track of previous searches. Uses the Giphy API to generate content.

LIRI

A command-line application that takes in parameters and allows you to search for music, movies and latest tweets using Spotify, Twitter and OMDb APIs.

WORK HISTORY

PROJECT HOME

Small Business Manager | Jul 2015 - Mar 2018

- Oversaw daily management and operation of a thrift shop as well as all administrative operations for the organization's dedicated online store.
- Created visual content for sales campaigns, customized product labels, photographed products and other creative projects as needed.

NAVIENT, DEPARTMENT OF EDUCATION

Solutions Specialist | Sep 2014 - Jun 2015

- Serviced government issued student loans with proprietary CLI tools and other GUI programs.
- Processed various functions on accounts such as forbearances, deferments, repayment options and account information resets.
